

## Rinnai Report 2022 (Integrated Report) Published

Rinnai Corporation (headquarters: Nagoya City, Aichi Prefecture; president: Hiroyasu Naito) published its Rinnai Report 2022 (Integrated Report) on October 31, 2022.

In 2002, we released our first annual Environmental Report, and since 2012 we have disclosed a wide range of information on our social contribution activities in our annual CSR Report. In recent years, many stakeholders have demanded further expansion of information disclosure to include financial information and strategies, in addition to non-financial information. For this reason, we upgraded the report and changed its name to Rinnai Report (Integrated Report) in 2020.

Recent years have seen an emphasis on carbon neutrality, realizing a decarbonized society, and other environmental initiatives, as well as social contribution initiatives such as ESG and the SDGs. As a result, companies are required to communicate their stance and strategies more clearly. Having completed the first year of our medium-term business plan, New ERA 2025, we recently published Rinnai Report 2022 (Integrated Report). It contains a report on our business results under the plan, a description of our RIM 2050 carbon neutral declaration, the status of other ESG-related items, and a summary of our overall approach.
